Brdr. Krüger, has collaborated with Studio David Thulstrup on the Karm sofa which was originally developed as a bespoke piece for the lounge of the new noma restaurant in Copenhagen and is now available as part of Brdr. Krüger's core furniture collection.

Made from specially selected thick and characteristic large oak planks, the sofa's nostalgic design evokes a sense of honesty and simplicity. 'The design concept is based on a sense of Scandinavian locality yet avoids clichés', says Thulstrup. The clean, sharp and modern lines of the piece make it reminiscent of 1970s Danish design. The sofa is a sophisticated yet calming design. It features signature Brdr. Krüger detailing and skilfully crafted woodwork, including the visible delicate wedge joints on both sides of the piece.

The sofa will be shown at Stockholm Furniture Fair in Pierre Frey fabric and is also available in Kvadrat fabrics and others on request.
