FONT LIGHT Arm stool

Designed by
Studio David Thulstrup

Description
The chair collection, titled "font", is a family of chairs, lounge chairs and barstools. all typologies are available with or without armrests. the name of the collection and its chairs refers to fonts and derive from the variating thickness of each typologies cushion and backrest. the chair is regular, the lounge chair bold and the barstool light. all typologies are interconnected through the design language which evolves from circle geometry. for the chair versions with armrests, the main design feature is the curved backrest and how it extends into the armrest, far enough to embrace the sitting person.
