## PUFFIN DINING TABLE

Designed by *Atelier Axo*

*Design made for gathering.*

Audo launches the Puffin Dining Table by Atelier Axo, a dining table collection shaped as much by atmosphere and use as by form itself. Originally created for Copenhagen restaurant Bobe in 2023, the design began with conversations about how a table can influence the feeling of a room: how people gather around it, how time stretches during a meal, and how certain objects quietly support everyday rituals without drawing attention to themselves.

That thinking remains central to Puffin. Rather than pursuing form as a statement, the design focuses on familiarity, warmth and presence. References to the traditional country kitchen table sit alongside the restraint and clarity associated with Shaker furniture, balancing solidity with openness in a way that feels both grounded and adaptable.

The round version encourages a natural sense of closeness, drawing people inward around a shared centre. The rectangular version extends the same language into a longer format suited to larger gatherings and more directional spaces. Together, the two forms create a family of tables designed to support different ways of living and gathering while maintaining a consistent expression.

Crafted in oak, Puffin is available with either an oiled solid wood or lacquered veneer tabletop depending on format. Across each variation, the material has been chosen for the way it ages through use, gradually absorbing the marks and rhythms of daily life rather than resisting them. The construction is intentionally straightforward and durable, allowing the table to move easily between residential and hospitality settings.

### *About the Designer*

Atelier Axo is a Copenhagen-based design studio working across furniture, interiors and objects with a focus on atmosphere, material presence and long-term use. The studio approaches design through the relationship between people and their surroundings, creating pieces that support everyday rituals.

Balancing sculptural simplicity with practical function in equal measure, Atelier Axo's work draws on references from traditional craftsmanship, hospitality and domestic spaces. Materials are chosen for their tactile and enduring qualities, allowing objects to develop character naturally through time and use.

PRODUCT TYPE  
Dining table

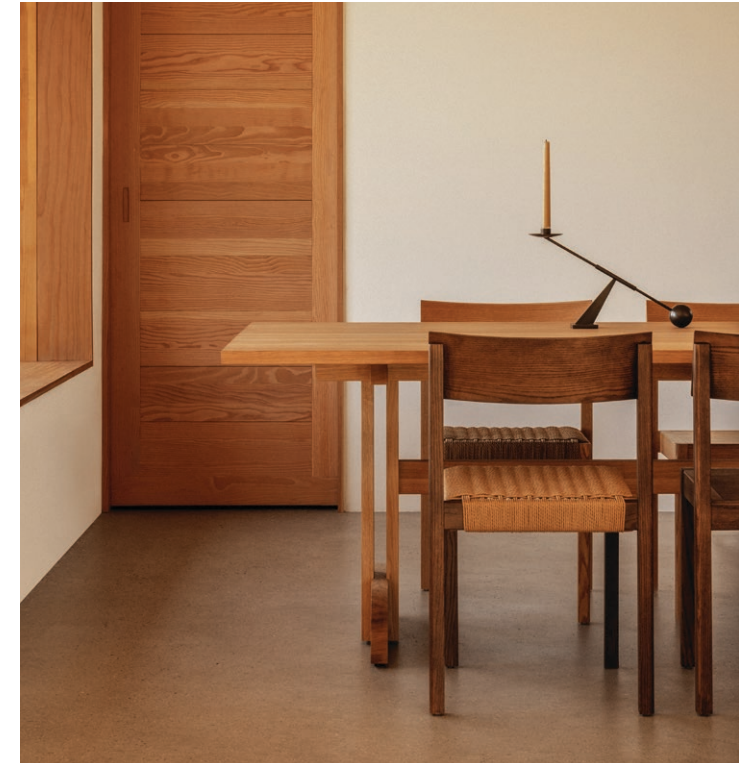

ENVIRONMENT  
Indoor

COLOUR  
Natural Oak

MATERIALS  
Plywood, foam, upholstery, solid oak  
eteel, plywood, oak veneer, solid wood
