Audo presents the Rond Bowl by Colin King

Colin King created the Rond Bowl as a *"singular object to ground and anchor a large surface."* Dramatic in scale, the cast concrete design is the perfect centerpiece for a large dining or coffee table. Its textured, tactile surface features an exaggerated lip that creates intriguing depth while displaying the perfect curves of the bowl. Equally beautiful as a standalone sculpture as it is put to use as a fruit bowl or to keep everyday objects to hand, the Rond Bowl adds the finishing touch to any space.

About the Designer

Professionally trained as a dancer, Colin King found himself at the intersection between a dancer's awareness of space and a stylist's impulse to bring it to life before foraying into the realm of product design. Currently based in Tribeca, New York City, he finds himself in a balance between being on set, styling and designing from his studio. Colin has styled for major publications such as Architectural Digest and T Magazine and hosts a myriad clientele within the genres of product and interior design. He is continuously inspired by life's everyday rituals, gestures and imperfections – made beautiful by their ever-evolving presence within a given space. Colin King is the designer behind Interconnect, Audo's monumental candleholder design.
