# MS BEAN

**MS BEAN HAS ATTITUDE AND EXUDES SELF-CONFIDENCE LIKE A BÖNA (BEAN), SWEDISH SLANG FOR A GOOD-LOOKING GIRL. THE TABLE EVEN TAKES THE SHAPE OF A BEAN.**

Its design references Mid-century modern as an organically-shaped sculpture, engineered and adapted to daily life, both inviting and embracing. Its sculptural design beckons the hand to touch.

Ms Bean is an eye-catcher. Materiality and geometry characterize the piece's distinct expression. A detailed finesse, seen in the contrasts between materiality and individual formal elements, sets this creation apart.

The two-color combinations with a mix of wood and laminate give the table an extraordinary visual character. The minimalist laminate surface stands in sharp contrast to the solid-wood dimensions, the effect of which gives the piece a light feeling.

Table legs are made from solid wood and the sturdy top is available in monochrome wood veneer or in an exclusive FENIX laminate. The wood is FSC-certified and finished with an oil that gives a natural, silky-smooth feel.
