# DINING TABLE 185

Design by Emil Thorup for HANDVÄRK

TABLE / LIGHTING / SOFA / DAYBED / SEATING

The HANDVÄRK Table Series features a slim industrial-inspired steel frame with a heavy-look squared table top that creates an elegant and engaging piece with both functionality and artistry.

**TYPE** INDOOR DINING TABLE

**PRODUCTION** TABLE TOP ITALY  
TABLE DENMARK

**DESCRIPTION** The sleek dining table is an ultra-modern take on a tile top table, with ten large pieces of honed or polished marble mounted in a slender steel frame. Natural variations and veins of the marble make each table truly unique.

**MATERIALS** TABLE TOP Untreated honed or polished marble  
TABLE Powder coated steel with or without brass elements. Black dyed waterproof MDF

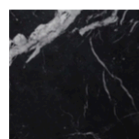

**MARBLE TREATMENT** HONED MARBLE  
Honed marble is characterized by a mat, smooth and satin-feel surface. To protect, saturate in a thick porridge-like mixture of soap flakes and water. Make sure the mixture is allowed to seep into the top. This treatment is repeated 3-4 times the next two weeks.

**POLISHED MARBLE**  
Polished marble is characterized by a smooth surface with a shiny and glossy look. The polish that coats the marble also acts as a type of protection, therefore allowing it to withstand stains better. However, the reflective characteristic of the finish makes it more prone to scratches. Unlike honed marble, polished marble does not require as much re-sealing.

**VARIATIONS** STEEL FRAME

- 1. BLACK
- 2. BLACK // BRASS
- 3. WHITE

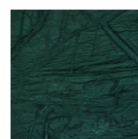

MARBLE

HONED BLACK

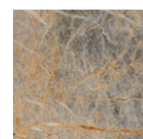

HONED WHITE

POLISHED GREEN

POLISHED DOLCEACQUA

POLISHED COLOMBE D'OR
